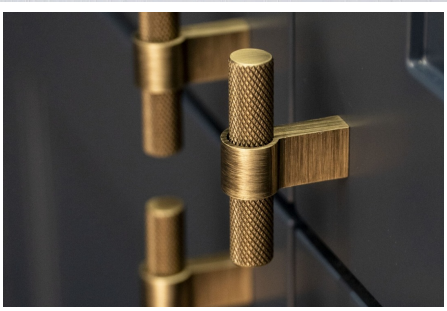
WHO WE ARE



We have been looking after Hartlepool and the surrounding areas since 2010. We started off as a small family run business with a focus on customer care and we are proud to say that focus has never changed.

No hard sell, no buy now for a discount pressure. We believe that it takes time to make such a big decision for a project that you will live with for many years.

3D DESIGNS AND VIRTUAL REALITY

We use 3D images and virtual reality in order to give you the most realistic representation of your new space. With our knowledge and ability to explain and show you exactly what you are getting, you can have total confidence in your choices.

PROFESSIONAL INSTALLATION

Our installation team is made up of dedicated kitchen and bedroom installers as well as a small select group of trades. We work with the same tradespeople week in and week out and we all work together to make sure your project runs seamlessly.

- Installation
- Electrical
- Plumbing, gas and heating
- Plastering
- Fully project managed or Supply only

We can also work alongside any of the trades that you may already use.
